

Questions about Attunements

Question: Do you suggest, as part of the IET attunement process, any minimum amount of time between attunements at different levels? If so, how long are your recommendations? This questions stems from my history with Reiki. I am currently attuned to Reiki II. During my sessions for Reiki I & II, my instructor suggested that I allow at least 21 days for a digestion/sorting process (my words, not hers) before I took the next level of Reiki attunement.

Answer: Thank you for inquiring about IET. We recommend that there be a 24 hour period of time between attunements. This is no problem because attunements are given only as a part of classes and classes cannot be taught any closer than 24 hours in time.

Question: I was wondering why it is necessary to get the attunements. Could you not just ask Divine to be prepared to do this type of work and they would prepare you? I plan on getting the intermediate and advance level attunements but was just curious as to why dive would require this. Thank you very much...

Answer: Thank you for your question. The best way to think of an attunement and the reason for attunements is by using a metphor. Think of yourself being like a digital radio receiver. The attunement gives you a "preset button" to pull in a specific angelic vibration. In the IET training classes, the student receives 4 preset vibrations that lets him or her pull in the Basic, Intermediate, Advanced, and Master-instructor energy rays.

I hope that this helps you understand the reason why attunements are necessary.

Question: Have you ever had people asking to be re-attuned to the angel energy and if so in what situations?

Answer: For the most part the only time that I re-attune someone is in the context of the Master-Instructor class. I did have a special event for local Master-Instructors in the Massachusetts area this month and as a part of that event I re-attuned the Master-Instructors that attended that event. IET attunements are permanent and it is not necessary to be re-attuned, however, I find that students do like to be re-attuned because they enjoy being in that attunement energy.

Question: Can someone take away an attunement? Do I have to be re-attuned if it's been removed?

Answer: The attunement is a permanent expansion of the student's human energy field (it never wears off). Nor can it be removed by another person. An attunement is like a prayer - when you say a prayer for someone, there it is. If someone chooses not to use it, that's fine, but it never goes away. Thus, you don't need to be re-attuned to have it. It's still there.

Question: Why is it that some energy systems provide remote attunements and IET does not? I am confused regarding the concept of energy work. How is it possible to do a remote session, where you are assessing the persons system (w/the aid of the angels), sending and integrating energy without compromising the quality of the system or service but reach a limitation in providing attunements remotely. I have learned that time and space are but a concept and are breeched when performing distant sessions. How is this not applied to

providing distant attunements. Is this an attempt to control the quality of the system by putting into place a standard format that supports the monitoring and regulation of the system. curious to know. thanks for your time.

Answer: Thank you for your question. You are right time and space are a concept in energy work for the most part but with the IET attunements we have discovered that they must be done in person. I like your explanation of the quality of the system by putting into place a standard format that supports the monitoring and regulation of the system. This is true. We are very conscious of keeping the integrity of IET solid. We value the fact that taking an IET class anywhere ... you would receive the same training and the system for doing an IET session is standard. Also IET is not just about the attunement. It is a complete learning system. Doing IET sessions for oneself or others helps release negative emotions that keep people stuck in repeating negative patterns. The attunements are wonderful but the sessions are also the way to healing.

Specifically regarding attunements, IET attunements are done by the Healing Angels *through* the IET Master-Instructor. The Master-Instructor creates the perfect energetic environment to prepare the IET student to receive the attunement through the use of hand positions, sacred geometry, and sequential techniques. Then, the Healing Angels work through the Master-Instructor, and bring the attunement through the empowerment of the Master-Instructor's attunements, to the student. The angels use the Master-Instructor's body to bring the attunement energy down from the Angelic vibration to the Human physical vibration where it can be transferred to the student. Thus, the attunement cannot be done absentee since the Master-Instructor offering the attunement cannot transfer the attunement through their human vibration absentee. It can only be transferred by being physically present with the student.

I hope that this is helpful and thank you again for you question.

Answer: IET attunements are permanent and therefore, you do not need to be re-attuned. Just to let you know, you can review the classes usually for a minimal fee if you are interested. Some people like to review to connect back with the energy of the people who are taking IET.

Question: I completed the advanced class in IET in August 2003 and have infrequently used the IET Energy. However I have made a conscious decision to start a daily practice using the IET techniques and I was wondering do I need to be re-attuned because I haven't practiced enough or is the energy something I will always be connected to regardless?

Answer: IET attunements are permanent and therefore, you do not need to be re-attuned. Just to let you know, you can review the classes usually for a minimal fee if you are interested. Some people like to review to connect back with the energy of the people who are taking IET.
