How to Teach

Thoughts From The Center of Being

Are you ready to improve all aspects of your life, raise your vibration, release all limitations and create the life of your dreams? Is your soul calling you to be of higher service as you interact with people in your daily life? Are you ready to become the Master of your life?

I became a Master-Instructor in 2010. At that time I did not have any desire to teach the IET classes. This class was all about myself and moving through the life events I was facing. As a single mom going through a divorce after 14 years, losing both parents to cancer and tragically losing three siblings all in a very short time frame I was feeling like a lost soul. This class gave me exactly what I needed to move through and heal from those events. As my energy field expanded, I was able to focus on my reach and understand I was to be of service to others even it was not through teaching. I walked away understanding that this class is all about the mastery of the IET® energy. With the full expansion of the IET energy ray I could bring an even stronger level of IET energy as a practitioner to my self-treatment, absentee treatments, and client sessions.

We all have a vision of what we are meant to do in the world which is called our Soul's Mission, but beyond our vision is the angels' even greater and grander vision for us in the world - something we call our REACH. Wouldn't you love to learn the ways to identify and claim that REACH? That is what the class is all about!! The more you work with the techniques from the class the better you will understand your Soul's Mission and Reach.

If you are ready to Reach for the Stars and Bring Your Vision to Life, improve all aspects of your being, raise your vibration, release all limitations, create the life of your dreams, be of higher service as you interact with people in your daily life and become the Master of your life to a higher degree, then the Master-Instructor Level class is for you!!!!

A personal Message from Angel Ariel:

"Our work begins in this realm with passion that you cannot even imagine. We have an ocean of knowledge, information, poetry, images and wisdom to convey to help the dilemma of your culture and people on your planet. It is our reason for existence-- to give this information." (IWA 333-334)

teaching this course. The day was filled with interesting conversations, questions, laughter and tears at times. The bonds that formed between these four women were surprising to me. All four have chosen a date for their Intermediate Level. We took a group picture at lunch time and have an orb in one of the photos which delighted everyone. I feel so blessed and humbled by the opportunity I have been given to share IET with so many people. I don't think I have ever said over and over "I am so happy" to my family as often as I did Saturday evening. If you feel it is appropriate, please pass along my thank you's to Stevan Thayer as well. I purchased his 9 CD pack of all three levels and found listening to the basic level CD's the week before teaching very helpful. I am looking forward to listening to the next three.
