How to Teach

This is an enjoyable one-day class spent reviewing how to teach the most popular IET classes.

We are excited to announce that we have just expanded the LearnIET website and made it easier than ever to find the details of IET classes that Master-Instructors choose to advertise!

We have added the ability for the Master-Instructors to advertise their IET classes on the LearnIET website. The Master-Instructors now have the ability to create individual class detail pages, which give the students all of the information about any classes they are offering. These classes will be in the regular schedule of classes, but you will see a hyperlink for the date of the class. You can click on the hyperlink to view the details of the classes. This will give a more detailed description of the class and a short bio on the Master-Instructor offering the class. We have used the class detail pages for the Master-Instructor level classes for many years with great success. Thus, we have now expanded it so that all Master-Instructors who list their classes on the website can also use that same method to advertise all of their IET classes.

You can click the following link to view an example of the [Class Detail page](#).

If you are a Master-Instructor who subscribes to the Instructor Listing Service, you can click on the following link to get more information about purchasing the additional feature of a [Class Details Page](#) for your classes.

If you have any questions about this feature, please contact Barbara at barbarastepniak@learniet.com or 845-657-7220.
