

Teaching your First IET Master-Instructor Class is a Powerful Doorway to your Destiny

1

Angel Ariel says that every doorway to your destiny that you pass through in life contains a threshold that you must step over. And each threshold is a fear that you have come into this lifetime to master.

The beauty of IET is that whenever you move through one of the doorways to your destiny, you have all of the angelic energy and self-healing techniques needed to master the fear so that you can pass through the doorway and move even further along your life's spiritual journey.

Taking the IET Trainers class, receiving the Trainers attunement and being empowered to teach the IET Master-Instructor class was a major doorway to your destiny that you have passed through brilliantly.

A next doorway to your destiny is to enact your empowerment as an IET Trainer and teach your first IET Master-Instructor class.

Even though it was your outstanding teaching abilities that led to your being invited to become an IET Trainer, it is possible that the prospect of teaching your first IET Master-Instructor class can bring up for healing feelings of self-doubt and fear about your teaching abilities and even temporarily undermine your self-confidence. This can result in your not offering an IET Master-Instructor class or not receiving registrations from students when you do offer a class. If you are experiencing this you are not alone. Other Trainers before you have experienced this as well.

Here are some techniques that other IET Trainers have used to help them move through the doorway to their destiny and teach their first IET Master-Instructor class.

Keep teaching Basic, Intermediate and Advanced IET students: most IET students prefer to take the IET Master-Instructor class from the same teacher who taught them the Basic, Intermediate and Advanced level IET classes.

Set a date for your IET Master-Instructor class that is perfect for you: anchor the energy of your IET Master-Instructor class by selecting a date and a teaching venue that is perfect for you. We have found that setting a date 3 to 6 months out is most successful.

Advertise your IET Master-Instructor class: After setting the date, give your students plenty of notice about your class by advertising it. Make sure you post both the date, and the details of your class on the LearnIET.com website (create a class details page) as soon as you have them. If you need any help, our office staff is happy to help you make it happen! Also use Facebook and other social media platforms to let your community know about your class. Send flyers about your class to your Basic, Intermediate and Advanced level IET students. Use energetic advertising (Sacred Heartnet Technique and Blessing Bowl Technique) to let the universe and angelic realm know of your plans.

Teaching your First IET Master-Instructor Class is a Powerful Doorway to your Destiny

2

Review the Master-Instructor class as a home study: immerse yourself in the energy and techniques of the IET Master-Instructor class by listening to the *Study with Stevan IET Master-Instructor* audio program. As you listen to the presentation of the Master-Instructor class, you can even follow along with the teaching script in Section 3 of the IET Trainers Guide.

Review the Master-Instructor class being taught by another IET Trainer: ask a Trainer in your area if you could sit in on their class and be their assistant to be a student practice partner if there are an odd number of students and to help out during the class as needed.

Co-Teach the IET Master-Instructor class with another Trainer: some Trainers find that co-teaching the IET Master-Instructor class with another Trainer gives them the added self-confidence they need to enable them to teach their first IET Master-Instructor class.

Give yourself regular IET Master-Instructor self-treatments: give yourself 5 minute empowerment sessions or full IET sessions on a regular basis to clear your fear and strengthen your human energy field.

Get IET Treatments from other IET Practitioners: while self-treatments are powerful, receiving IET Treatments from other IET Practitioners can be even more powerful.

The beauty about our doorways to our destiny is that once you pass through them, the fear that you had before you passed over the threshold is gone. Once you have taught your first IET Master-Instructor class you will look back and say "what was I afraid of"? You can then even reach out and help one of your fellow Trainers to master their fears!
